### Technical Support

**Luigi Marino** – Technical Support

## Course organization

- 15 participants
- 3 surgical procedures performed anatomically *step by step*
- 2 anatomical dissections
- Technical support by Storz
- Surgical-technical support by Urology Unit and Uro-surgical Nurses of Ospedale Israelitico of Rome
- *Ex cathedra* lessons
- Pelvic-trainer activity
- Technical questionnaires
- Official languages: Italian, English, French

Faculty and scientific secretariat will support the participants to perform the activities: three urologic surgeons will teach step by step the surgical techniques. One surgical anatomist will cooperate with an urologic surgeon to conduct the dissections, also collaborating with the surgeons. The course is designed for urologists who are fully dedicated to surgery.
